Mobile District

MOBILE DISTRICT BOUNDARIES – CIVIL WORKS

Major Missions

Coastal/Inland Navigation

Recreation

Hydropower

Dredging

Flood Control & Disaster Response

Environmental

Engineering with Nature

MOBILE DISTRICT BOUNDARIES – MILITARY

Areas of Support

1. Defense Readiness

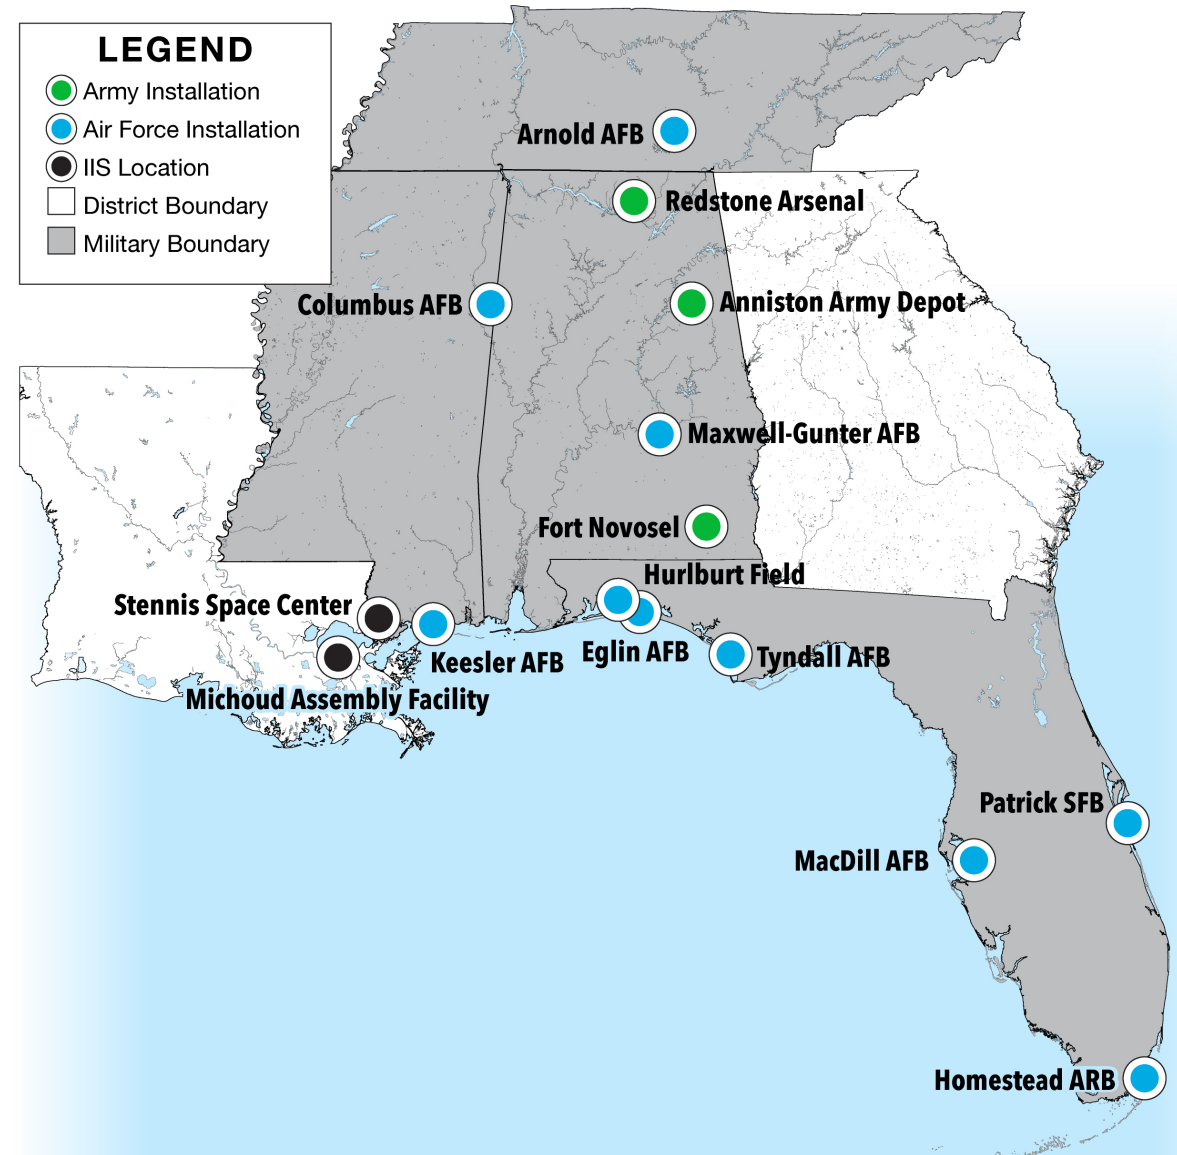

- Aviation Hangar Facilities
- Base of the Future (Tyndall)

2. Quality of Life for Soldiers, Airmen, and Guardians

- Barracks and Dormitories
- Child Development Centers

3. Hospital Bed Tower Construction (VA)

4. Organic Industrial Base (OIB)

USACE MAP OF CIVIL WORKS DIRECTORATE SUPPLEMENTAL PROGRAM

The Civil Works Directorate Supplemental Program is a \$44 Billion dollar program spread across five major appropriations that delivers infrastructure across all our mission areas. The missions' areas include flood risk management, navigation, and ecosystem restoration. You can select the link located below to view the thousands of supplemental projects our teams are delivering across the nation. Viewers can filter projects by location, Congressional District, public law, and project name. By clicking on the location marker or the "More Info" button a user can also view upcoming project milestones, project descriptions and a link to learn even more about the project, or the district delivering the project. The map is an evolving tool, and you are encouraged to explore its features and your suggestive improvements submitted to the development team are welcomed.

To access the map, click [HERE](#). Or click on the icon below.

For more about the supplemental program's implementation guidance and examples of successes to date, click [HERE](#).

DREDGING PROGRAM

Solicitation Number	Project Description	NAICS	Award	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-24-B-0001	Mobile Harbor Deepening & Widening, Phase 6 of the Mobile Harbor Navigation Project which consists of deepening and widening portions of the Upper Bay Channel and the Upper Bay Turning Basin (Choctaw Pass Turning Basin). The anticipated requirement for this effort will be for a bucket and scow. The Corps estimates 2.1M cubic yards of predominately sandy material will be dredged.	237990	SATOC	\$256M - \$100M	March-24	May-25
W91278-24-B-0002	USACE is implementing the Mobile Harbor Federal Navigation Project through a six phased approach. USACE is seeking a contractor to maintain the overall dredging schedule for this dual construction phase. Approximately 3.2 million cubic yards of material will be dredged from the remaining portion of the Bar Channel, including the bend easings. This also involves the Lower Bay Channel, and a portion of the widener will also be dredged to meet the completion of the project's goals. Various types of dredging material will be used on Sand Island requiring a cutterhead/pipeline dredge and a hopper dredge to meet the project's requirements.	237990	Full and Open with HUBzone Price Preference	\$40M - \$60M	November-24	March-25

W91278-23-R-0069	MDA Campus Von Braun IV, Ground Test Facility Infrastructure, Redstone Arsenal Data Center for the Missile Defense Systems. Convert 163,466 SF of existing administrative space five-story concrete and structural steel building. New construction includes a 1,722 SF exterior stairwell and a 14,138 SF one-story building expansion to house electrical gear for the new data center.	236220	Full and Open with HUBZone Price Preference	\$120M - \$150M	Apr 24	Dec 25
W91278-23-R-0119	DHA program Support to provide (O&M) services for the buildings associated with Weed Army Community Hospital (WACH) at Ft. Irwin, California. USACE is seeking a contractor that can provide O&M, incidental repair, and minor construction for medical/healthcare and their support facilities in a continuous and satisfactory condition on a 24 hour a day basis, 7 days per week, 365 days per year, fully staffed around the clock. The work requirements include preventive, predictive, unscheduled, and emergency maintenance of all facility systems and components including architectural, mechanical, electrical, and instrumentation. Contractors will require extensive knowledge of the technical requirements, code and accreditation compliance, and patient-related risk.	236220	Full and Open with HUBZone Price Preference	\$5M - \$13M	Dec 23	Dec 28
W91278-23-R-0131	Roof Replacement Stennis Space Center, MS. USACE anticipates removing and replacing the roof at building 9101, located at SSC. Project will include removing the existing 300,000 SF metal roof system, replacing it with a new metal roof with a spray on roof coating. No ongoing activities at building 9101 can be interrupted for any reason and no roof openings will be allowed to exist overnight. The offeror will ensure that no debris or foreign objects can fall on any of the tenants of this building during construction.	238160	Full and Open with HUBZone Price Preference	\$10M - \$25M	OCT 23	Dec 25

CONSTRUCTION PROGRAM

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-24-R-0010	USACE is seeking a contractor that can renovate three (3) existing aircraft hangars at MacDill AFB. The contractor must be able to provide all labor, materials, and equipment required to extend three KC-46-A aircraft hangars and alter their existing conditions to meet the specifications. The hangars must have corrosion control, tail door extensions, re-enforced foundation, structural steel frames, and the alteration work includes interior renovation to accommodate body fuel tank storage, plus increasing a variety of working maintenance areas. The work also includes the reconfiguration of existing fire suppression system, lighting and fall restraint system to accommodate the KC-46A aircrafts, along with other related improvements.	236220	Full and Open with HUBZone Price Preference	\$50M - \$90M	April-24	September-26
W91278-24-R-0013	The U.S. Army Corps of Engineers, Mobile District is seeking a contractor able to construct a Research Lab along with associated facilities in Auburn, AI. The research facility will be for the United States Department of Agriculture, National Soils Dynamic Laboratory. The existing USDA-ARS Auburn Lab and Office facility, and other facilities' will be relocated from its current location to another location within the park area. The facilities include laboratories, greenhouse, headhouse, administrative support offices, sample preprocessing, and model fabrication facilities. Parking area construction, site grading, and vegetation clearing, plus construct a two-story Main Lab / Office Building to the required specification, including meeting various other construction requirements.	236220	Full and Open with HUBZone Price Preference	\$25M - \$100M	March-24	February-26
W91278-23-R-0115	Consolidated Communications Facility, Patrick Space Force Base, FL. USACE seeking contractors to construct a 95,000 SF, three story Space communications facility. The proposed facility is the main communications hub at Patrick Space Force Base and critical to space launch mission.	236220	Full and Open with HUBZone Price Preference	\$25M - \$100M	Dec-23	Aug-26

CONSTRUCTION PROGRAM

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-23-R-0154	The U.S. Army Corps of Engineers, Mobile District, anticipates design and construction of approximately 5,500 sf replacement Working Dog Treatment Facility supporting military working dogs. The replacement Working Dog Treatment Facility will provide complete, preventive, diagnostic, dental and surgical care for Military Working Dogs (MWD). With clinical flow to accommodate modern veterinary practices. Supporting facilities include utilities, site improvements, parking, signage, antiterrorism force protection measures, demolition, and environmental protection measures.	236220	Full and Open with HUBZone Price Preference	\$5M - \$10M	February-24	October-24
W91278-23-R-0141	Mobile District is seeking a contractor for the Nanofiltration Water Treatment Plant project located in in Gautier, MS. The project is the construction of the Nanofiltration Water Treatment Plant housed within a new building on a new concrete pad adjacent to the City of Gautier's existing Ion Exchange Plant. The contractor will install underground piping, construct the building enclosure and the concrete pad, construct the clean-in-place system, and install the sodium hypochlorite system (disinfection) and the electrical components necessary to run the Nanofiltration plant.	237110	Full and Open with HUBZone Price Preference	\$1M - \$5M	December-23	September-25

CONSTRUCTION

Solicitation Number	Project Description	NAICS	Set Aside	Value	Estimated Contract Award Date	Estimated Contract End Date
W91278-24-R-0024	Commercial Vehicle Inspection Gate, Patrick Space Force Base, FL USACE is seeking a contractor that can design and constructing an entry control facility for large commercial vehicles to include a new Commercial Vehicle Inspection Facility, Gatehouse, Final Denial Barriers, Over-Watch, perimeter wall and modifications to Road Network. Construction will consist of reinforced concrete slabs & foundations, structural steel, reinforced concrete walls, pre-engineered roof structure and Spanish style, clay S-tile roofs. Existing Anvil Road, Forest Lane, and State Road A1A roadways will be modified to meet current standards, including reconfiguration to include necessary acceleration /deceleration / turning lanes. The project will include all utilities, site improvements, pavements, communications infrastructure, active & passive security infrastructure, cybersecurity, transfer switches and connections to an emergency power source and all other supporting infrastructure necessary for a complete and useable facility. This project includes demolition of two facilities building 935 (40 SM) & building 953 (15 SM) for a total of 55 SM. The facility will be designed as permanent construction in accordance with Department of Defense Unified Facilities Criteria 1-200-01.	237310	Small Business Set Aside	\$10M - \$25M	May-24	Apr-26

ON GOING MARKET RESEARCH

Project Title	Project Description	NAICS	Location	Estimated Value
Shock Applied Impact Laboratory	Seeking Small Business Contractors to perform Laboratory projects involving 6,000 square foot 1-story facilities w/concrete foundations, pre-engineered steel frame structural systems, insulated metal panel system, metal stud w/gypsum wall board walls, sloped metal roof system with insulation, and interior utilities (elect, fire suppression, plumbing and HVAC) to house firing instrument equipment for indoor experiments in high bay, control/office, unisex restrooms, lapping room, build room, mezzanine storage area, and communication area. Site improvements include landscaping, pavement, retention ponds, extended utilities, and all necessary support.	236220	Eglin, AFB	\$2.5M - \$7.5M
Defense Health Agency Program	Seeking Small Business Contractors able to perform O&M and Repairs within MEDCOM Program. The contractors must have a thorough understanding of and experience in complying with current codes and standards established by applicable accrediting Authorities Having Jurisdiction (AHJ) and The Joint Commission (TJC), the Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC), as well as other applicable industry medical codes and standards governing the operation of a medical facilities and laboratories published by the National Fire Protection Association (NFPA). Small business contractors should be able to meet special requirements within a demanding work environment and willing to take risks performing work that may impact patient health and safety standards in exposing their own workers to toxins or infectious diseases. Extensive knowledge of functional operations of laboratory facilities and related equipment, facility support systems, and building structures associated with the facilities described within the MEDCOM program.	236220	Various Locations Throughout the U.S. And Pacific Region	TBD

ON GOING MARKET RESEARCH

Project Title	Project Description	NAICS	Location	Estimated Value
Dredging	The U.S. Army Corps of Engineers, Mobile District, anticipates several dredging acquisitions during the future years. The USACE is seeking Small Business Contractors able to perform maintenance dredging of local and neighbor states inland river systems, coastal harbor rivers, and bays. Future acquisitions also involves rental and / or unit price dredging equipment for different size categories of dredges and for different types of dredges. The required minimum pump discharged diameters will be between 24” and 30” inches, measured from the inside diameter of the discharge side of the main dredge pump. The minimum horsepower applied to the main pump of 2400 / 5000 hp respectively. Additional requirement will be for trailing suction hopper dredges with a minimum hopper capacity of 3600 cubic yards. Small Business Contractors must manage a crew or staff and provide support equipment; such as, pipelines, booster pumps, tugs, tangle chains, and various floating plants, or other related supply items that would normally be expected to support dredging operations.	237990	Various Locations	\$2.5M - \$245M
Disposal of Dredging Material	The U.S. Army Corps of Engineers, Mobile District is seeking Small Business Contractors who can perform work consisting of dike raising, excavation, leveling, and stacking material, hauling out dried material, dewatering ditches, and constructing and installing weirs. Additional work includes constructing earthen berms in coastal waters, transporting material to coastal waters for marsh construction, construction of rock levees, and re-establishing small channels by snagging or mechanical/hydraulic dredging.	237990	Alabama along the Black Warrior Tombigbee Waterway and the Alabama River Lakes Waterway.	\$45M - \$50M
