TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 13-19

NOTICE TO NAVIGATION INTERESTS:

### GULF INTRACOASTAL WATERWAY, FLORIDA

Notice is given to mariners that a slope failure has occurred on the Gulf Intracoastal Waterway, Mile 263 near the Bay County and Walton County, Florida line. Heavy rains in the area have caused a blockage of the channel. The U.S. Army Corps of Engineers and the U.S. Coast Guard are on site assessing the situation. Dredging equipment is being mobilized to the site to restore the channel, however, it will likely be several days before the work can be completed and the channel cleared.

Additional information will be provided as it becomes available.

CARL E. DYESS  
Chief, Navigation Section
