TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 15-47

NOTICE TO NAVIGATION INTERESTS:

TENNESSEE TOMBIGBEE WATERWAY, MISSISSIPPI

Notice is given to mariners that significant shoaling has occurred at mile 366.0 in the western portion of the channel as a result of recent heavy rain falls. The available navigation channel width has been reduced from 300 feet to approximately 130 feet. We expect to have a dredge on site within the next 4 to 5 weeks. Mariners should exercise extreme caution when transiting this area.

For further information please contact Mr. Allan Brewer at the Tennessee-Tombigbee Waterway Project Office at (662) 327-2142, or inquire at the locks along the waterway.

CARL DYESS
Chief, Navigation Section
