**NAVIGATION BULLETIN NO. 14-23**

**NOTICE TO NAVIGATION INTERESTS:**

**GULF INTRACOASTAL WATERWAY, FLORIDA**

Notice is given to mariners that several slope failures have occurred on the West Bay Land Cut of the Gulf Intracoastal Waterway, between Mile 257.0 and 264.0 near the Bay County and Walton County, Florida line. Heavy rains in the area have caused either the channel to be restricted or blocked. The U.S. Army Corps of Engineers and the U.S. Coast Guard are on site assessing the situation. Dredging equipment will be mobilized as soon as possible to the site to restore the channel, however, it will likely be several days before the work can be completed and the channel cleared.

Additional information will be provided as it becomes available. For further information please contact the U.S. Army Corps of Engineers, Panama City Site Office at (850) 784-9780.

CARL E. DYESS  
Chief, Navigation Section
