

Appendix A
Federal Register Notice

at each of the three alternative locations that would occur as a result of implementing the proposed action and responds to public comments. Impacts at alternative sites would result from construction and training activities. Each of the impacts can be mitigated.

The Army invited full public participation to promote open communication and better decision making. All persons and organizations that have an interest in the permanent stationing of the 2/25th SBCT were urged to participate in this NEPA evaluation process. The public has provided input and comments at scoping meetings and public meetings held at all potential alternative stationing locations for the 2/25th. The Army held scoping meetings in January and February 2007 and Draft EIS meetings in September and October 2007. Responses to the public comments are addressed in this FEIS.

The FEIS is available for review at <http://www.aec.army.mil>.

Dated: February 15, 2008.

Addison D. Davis, IV,

*Deputy Assistant Secretary of the Army,
(Environment, Safety and Occupational Health).*

BILLING CODE 3170-08-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare Draft Environmental Impact Statement for Updated Water Control Manuals for the Apalachicola-Chattahoochee-Flint River Basin

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers (Corps), Mobile District, intends to prepare an update and revision of the water control manuals for the Apalachicola-Chattahoochee-Flint (ACF) River Basin. Concurrent with that revision, a Draft Environmental Impact Statement (EIS) will be prepared, as required by the National Environmental Policy Act (NEPA). The Draft EIS will address updated operating criteria and guidelines for managing the water storage and release actions of agency water managers and associated environmental impacts.

FOR FURTHER INFORMATION CONTACT: Questions about the manual update or NEPA process can be answered by: Mr. Brian Zettle, Inland Environment Team,

Environment and Resources Branch, Planning and Environmental Division, U.S. Army Engineer District-Mobile, Post Office Box 2288, Mobile, AL 36628-0001; Telephone (251) 690-2115; or delivered by electronic facsimile at (251) 694-3815; or E-mail:

brian.a.zettle@usace.army.mil. You may also request to be included on the mailing list for public distribution of notices, meeting announcements and documents associated with the preparation and review of the Draft EIS.

SUPPLEMENTARY INFORMATION:

Background. Water control manuals are guidance documents that assist Federal water managers in the operation of individual and multiple interdependent Federal reservoirs on the same river system. They provide technical, historical, hydrological, geographic, demographic, policy and other information that guide the proper management of reservoirs during times of high water, low water, and normal conditions. The manuals contain water control plans for each of the reservoirs within the basin system and specify how the various reservoir projects will be operated as a balanced system. The manuals also contain drought plans and zones to assist Federal water managers in knowing when to reduce or increase reservoir releases and conserve storage in the Federal reservoirs, and how to ensure the safety of dams during extreme conditions such as floods. The authority and guidance for the Corps to prepare and update these manuals may be found in Section 7 of the 1944 Flood Control Act, and the following Corps of Engineer Regulations: ER 1110-2-240, ER 1110-2-241, ER 1110-2-1941 and ER 1110-2-8156.

The ACF Basin provides water resources for multiple purposes from northwestern GA down, along the Alabama-Georgia border and then into Florida and the Gulf Coast at Apalachicola Bay, extending a distance of approximately 540 miles along the Chattahoochee and Apalachicola Rivers and an additional 350 miles on the Flint River, and encompassing an area of approximately 19,600 square miles. The master operating manual for the ACF River Basin dates to 1958, prior to the completion of most of the reservoir projects in the basin, and the individual reservoir project water control manuals were last updated at various dates as far back as the 1970s and 1980s, with primarily administrative updates approved in the 1990s. There are 16 major dams and reservoirs (five Federal and 11 non-Federal) located in the basin. The Federal projects owned and operated by the Corps include Buford

Dam and Lake Lanier, West Point Dam and Lake, Walter F. George Dam and Lake, George W. Andrews Dam and Lake located on the Chattahoochee River; and Jim Woodruff Dam and Lake Seminole located on the Apalachicola River at the confluence of the Chattahoochee and Flint River. The authorized project purposes at the Corps lakes include flood control, hydropower, navigation, water supply, water quality, fish and wildlife conservation, and recreation.

Other non-Federal reservoirs located on the Chattahoochee River and Flint River include power projects owned and operated by the Georgia Power Company and Crisp County, Georgia. The non-Federal power lakes are primarily run-of-river projects that do not impact Federal project operations significantly, but operations between the Georgia Power projects and the Federal projects are coordinated as necessary to meet downstream water quality and water supply demands.

In 1989, a draft master manual for the ACF basin was proposed which described operations current at that time. This draft manual was never finalized due to the initiation of litigation by the State of Alabama, which is still ongoing. However, since that time, Corps operations have continued to conform with the operations described in the 1989 draft manual and other more recently updated water control manuals for the various Federal projects. The new manuals will eventually replace any current ones and will address the basin-wide management of those water resources.

Public participation throughout the water control manual revision process is essential. The Corps invites full public participation at all stages to promote open communication and better decision making. All persons, stakeholders, and organizations that have an interest in water-related resources in the ACF basin, including minority, low-income, disadvantaged and Native American groups, are urged to participate in this NEPA environmental analysis process. Assistance will be provided upon request to anyone having difficulty understanding how to participate. Dates and locations for public scoping meetings will be announced by future publication in the **Federal Register** and in the local news media. Tentative dates for publication of the draft water control manuals and EIS and other opportunities for public involvement will also be announced at that time. Public comments are welcomed anytime throughout the NEPA process.

Cooperating Agencies. The lead responsibility for this action rests with the Corps. The Corps intends to coordinate and/or consult with an interagency team of Federal and State agencies during scoping and preparation of the draft EIS. A decision will be made during the scoping process whether other agencies will serve in an official role as cooperating agencies.

Scoping. The Alabama-Coosa-Tallapoosa Rivers (ACT)/Apalachicola-Chattahoochee-Flint Rivers (ACF) Comprehensive Study from 1990 to 1997 and ACF Compact negotiations from 1997 to 2004 involved the States (Alabama, Florida and Georgia), stakeholders and the public in identifying areas of concern; collecting and developing water resource, environmental, and socioeconomic data; and developing tools to assist in decisions affecting water resources within the two basins. Development of the updated water control manuals and scoping for this EIS will continue to build upon the knowledge and information developed during the Comprehensive Study and subsequent Compact negotiations. Scoping meetings were also held in the fall of 2006 associated with initiation of a draft EIS for the Lake Lanier Interim Storage Contracts associated with the Southeastern Federal Power Customers, Inc. vs. the Secretary of the Army settlement agreement, and information gathered during this scoping process will also contribute to the information base for the ACF water control manual EIS. Additional scoping meetings or workshops with agencies and stakeholder groups will be scheduled to identify significant issues and data gaps, focus on the alternatives to be evaluated, and to identify appropriate tools to assist in the evaluation of alternatives and analysis of impacts.

Dated: February 13, 2008.

R. Daren Payne,

*Lieutenant Colonel, Corps of Engineers,
Acting District Commander.*

BILLING CODE 3710-CR-P

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Inland Waterways Users Board

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of open meeting.

SUMMARY: In accordance with 10(a)(2) of the Federal Advisory Committee Act

(Pub. L. 92-463), announcement is made of the forthcoming meeting.

Name of Committee: Inland Waterways Users Board (Board).

Date: March 27, 2008.

Location: Baton Rouge Marriott Hotel, 5500 Hilton Avenue, Baton Rouge, Louisiana 70808, (225-924-5000).

Time: Registration will begin at 8:30 a.m. and the meeting is scheduled to adjourn at 1 p.m.

Agenda: The Board will consider its project investment priorities for the next fiscal year. The Board will also hear briefings on the status of both the funding for inland navigation projects and studies, and the Inland Waterways Trust Fund, and be provided updates of various inland waterways projects.

FOR FURTHER INFORMATION CONTACT: Mr. Mark R. Poynton, Headquarters, U.S. Army Corps of Engineers, CECW-IP, 441 G Street, NW., Washington, DC 20314-1000; Ph: 202-761-4258.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3710-92-P

DEPARTMENT OF EDUCATION

Jacob K. Javits Gifted and Talented Students Education Program

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Notice of proposed priority: reopening of comment period.

SUMMARY: This document reopens the comment period for the proposed priority under the Jacob K. Javits Gifted and Talented Students Education Program that was published in the **Federal Register** (73 FR 2228) on January 14, 2008. The proposed priority would support the implementation of models with demonstrated effectiveness in identifying and serving gifted and talented students who are economically disadvantaged or limited English proficient, or who have disabilities, and who may not be identified and served through typical strategies for identifying gifted children. The original deadline for comments on the proposed priority was February 13, 2008. Due to administrative problems with the e-mail address listed in the notice of proposed priority, we are reopening the comment

period until March 10, 2008 to give stakeholders more time to comment on the proposed priority.

DATES: We must receive your comments on or before March 10, 2008.

ADDRESSES: All comments concerning the proposed priority should be addressed to: Teresa Cahalan, U.S. Department of Education, 400 Maryland Avenue, SW., room 5W218, Washington, DC 20202-8245. If you prefer to send your comments through the Internet, use the following address: jacobk.javits@ed.gov.

You must include the term "Comments on FY 2008 Javits Priority" in the subject line of your electronic message.

FOR FURTHER INFORMATION CONTACT: Teresa Cahalan. *Telephone:* (202) 401-3947.

If you use a telecommunications device for the deaf (TDD), you may call the Federal Relay Service (FRS) at 1-800-877-8339.

Individuals with disabilities can obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

Electronic Access to This Document

You may view this document, as well as all other Department of Education documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at the following site: <http://www.ed.gov/news/fedregister>. To use PDF you must have Adobe Acrobat Reader, which is available free at this site. If you have questions about using PDF, call the U.S. Government Printing Office (GPO), toll free, at 1-888-293-6498; or in the Washington, DC, area at (202) 512-1530.

Note: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available on GPO Access at: <http://www.gpoaccess.gov/nara/index.html>.

BILLING CODE 3710-08-P

DEPARTMENT OF DEFENSE

Department of the Army

Notice of Intent To Prepare an Environmental Impact Statement (EIS) for Disposal and Reuse of Fort Monroe, VA, Resulting From the 2005 Base Closure and Realignment Commission's Recommendations

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: The Department of the Army intends to prepare an EIS for the disposal and reuse of Fort Monroe, Hampton, Virginia. Pursuant to the BRAC law, Fort Monroe is to close by September 14, 2011. Other actions included in the closing of Fort Monroe are relocating the Headquarters, U.S. Army Training and Doctrine Command (TRADOC); the Installation Management Command (IMCOM) Northeast Region; the U.S. Army Network Enterprise Technology Command (NETCOM) Northeast Region; and the Army Contracting Agency Northeast Region Office to Fort Eustis, Virginia. The U.S. Army Accessions Command and the U.S. Army Cadet Command will be relocated to Fort Knox, Kentucky. These relocations have been or will be addressed in separate National Environmental Policy Act (NEPA) documents for those locations.

DATES: The scoping meeting for the EIS will be held on October 28, 2008, 7 p.m. to 9 p.m., Northampton Community Center, 1435 Todds Lane, Hampton, VA 23666.

FOR FURTHER INFORMATION CONTACT: Ms. Jennifer Guerrero; phone: (757) 788-5363; e-mail: jennifer.lee.guerrero@us.army.mil.

SUPPLEMENTARY INFORMATION: Fort Monroe is a 570-acre U.S. Army

Garrison located at the southeastern tip of the Virginia Lower Peninsula between Hampton Roads and the Lower Chesapeake Bay. The hallmark of Fort Monroe is its stone fortress and moat.

The proposed action (Army primary action) is to dispose of the surplus property generated by the BRAC-mandated closure of Fort Monroe. Reuse of Fort Monroe by others is a secondary action resulting from disposal. The Army has identified two disposal alternatives (early transfer and traditional disposal), a caretaker status alternative, and the no action alternative (as required by NEPA). The EIS will analyze the impact of each reuse alternative upon a wide range of environmental resource areas including, but not limited to, air quality, traffic, noise, biological resources, water resources, geology and soils, cultural resources, socioeconomic, utilities, land use, aesthetics and visual resources, hazardous and toxic substances, and cumulative environmental effects.

The Army will conduct an environmental impact analysis that will focus on the effects of closure and reuse. One preliminary finding is that transportation impacts will have the most significant effect, with or without a major tourism component in the reuse plan. Also, at this early stage, impacts to air quality, infrastructure, and land use are not considered significant. With respect to cultural resources, significant adverse impacts are possible, but these can be mitigated by provisions contained in the Programmatic Agreement between the Army and the Virginia Department of Historic Resources.

Additional resources and conditions may be identified as a result of the scoping process initiated by this NOI. Other opportunities for public participation will be announced in the respective local news media. The public will be invited to participate in scoping activities for the EIS and comments from the public will be considered before any action is taken to implement the disposal and reuse of Fort Monroe.

Dated: September 12, 2008.

Addison D. Davis, IV,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health).

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Public Scoping Meetings for Update of the Water Control Manual for the Apalachicola-Chattahoochee-Flint River Basin in Georgia, Florida, and Alabama

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Supplement to Notice of Intent.

SUMMARY: The U.S. Army Corps of Engineers (Corps), Mobile District, issued a Notice of Intent (NOI) in the **Federal Register** (73 FR 9780) published on February 22, 2008, describing the preparation of a Draft Environmental Impact Statement (EIS), as required by the National Environmental Policy Act (NEPA) to address the proposed update of the Water Control Manual (WCM) for the Apalachicola-Chattahoochee-Flint (ACF) River Basin located in Georgia, Florida, and Alabama. The Corps will hold five public scoping meetings during the month of October as part of its review and update of the WCM for the ACF River Basin. The public is invited to attend the scoping meetings which will provide information on the WCM update process and afford the opportunity to receive input from the public about their issues and concerns regarding that process. All five public meetings will be held using an open house format, allowing time for participants to review specific information and to provide comments to the resource staff attending the meeting.

DATES: See **SUPPLEMENTARY INFORMATION** section for meeting dates.

ADDRESSES: See **SUPPLEMENTARY INFORMATION** section for meeting addresses.

FOR FURTHER INFORMATION CONTACT:

Questions about the manual update or NEPA process can be answered by: Mr. Brian Zettle, Biologist, Environment and Resources Branch, Planning and Environmental Division, U.S. Army Engineer District-Mobile, Post Office Box 2288, Mobile, AL 36628-0001; Telephone (251) 690-2115; or delivered by electronic facsimile at (251) 694-3815; or e-mail: brian.a.zettle@usace.army.mil. You may also request to be included on the mailing list for public distribution of notices, meeting announcements and documents.

SUPPLEMENTARY INFORMATION: The meeting dates are:

1. October 20, 2008, 5 p.m.-8 p.m. (EDT), Apalachicola, FL.

2. October 21, 2008, 5 p.m.–8 p.m. (CDT), Dothan, AL.
3. October 22, 2008, 5 p.m.–8 p.m. (EDT), LaGrange, GA.
4. October 23, 2008, 4 p.m.–7 p.m. (EDT), Marietta, GA.
5. October 29, 2008, 5 p.m.–8 p.m. (EDT), Gainesville, GA.

The meeting locations are:

1. Apalachicola, FL—Franklin County Courthouse, 33 Market Street, Apalachicola, FL 32320, (850) 653–8861.
2. Dothan, AL—Dothan Convention Center, 4106 Ross Clark Circle, Dothan, AL 36303, (334) 712–9808.
3. LaGrange, GA—Callaway Center at West Georgia Technical College, One College Circle, LaGrange, GA 30240, (706) 845–4323.
4. Marietta, GA—Cobb County Government: Civic Center, Hudgins Hall, 548 S. Marietta Parkway SE., Marietta, GA 30060, (770) 528–8450.
5. Gainesville, GA—Georgia Mountain Center, 301 Main Street, SW., Gainesville, GA 30503, (770) 534–8420.

Additional information on the ACF River Basin and the Water Control Manual update process will be posted on the Mobile District Web page as it becomes available: <http://www.sam.usace.army.mil>.

Dated: September 12, 2008.

Byron G. Jorns,

Colonel, Corps of Engineers, District Commander.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC08–520–001, FERC–520]

Commission Information Collection Activities, Proposed Collection; Comment Request; Submitted for OMB Review

September 12, 2008.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice.

SUMMARY: In compliance with the requirements of section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507, the Federal Energy Regulatory Commission (Commission) has submitted the information collection described below to the Office of Management and Budget (OMB) for review of this information collection requirement. Any interested person may file comments directly with OMB and

should address a copy of those comments to the Commission as explained below. The Commission received no comments in response to an earlier **Federal Register** notice of April 15, 2008 (73 FR 20267–20269) and has made this notation in its submission to OMB.

DATES: Comments on the collection of information are due by October 20, 2008.

ADDRESSES: Address comments on the collection of information to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Federal Energy Regulatory Commission Desk Officer. Comments to OMB should be filed electronically, *c/o oira_submission@omb.eop.gov* and include the OMB Control No. 1902–0083 as a point of reference. The Desk Officer may be reached by telephone at 202–395–7345. A copy of the comments should also be sent to the Federal Energy Regulatory Commission, Office of the Executive Director, ED–34, Attention: Michael Miller, 888 First Street, NE., Washington, DC 20426. Comments may be filed either in paper format or electronically. Those persons filing electronically do not need to make a paper filing. For paper filings, such comments should be submitted to the Secretary of the Commission, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 and should refer to Docket No. IC08–520–001. Documents filed electronically via the Internet must be prepared in an acceptable filing format and in compliance with the Federal Energy Regulatory Commission submission guidelines. Complete filing instructions and acceptable filing formats are available at (<http://www.ferc.gov/help/submission-guide/electronic-media.asp>). To file the document electronically, access the Commission's Web site and click on Documents & Filing, E-Filing (<http://www.ferc.gov/docs-filing/efiling.asp>), and then follow the instructions for each screen. First time users will have to establish a user name and password. The Commission will send an automatic acknowledgement to the sender's e-mail address upon receipt of comments.

All comments may be viewed, printed or downloaded remotely via the Internet through FERC's homepage using the "eLibrary" link. For user assistance, contact ferconlinesupport@ferc.gov or toll-free at (866) 208–3676 or for TTY, contact (202) 502–8659.

FOR FURTHER INFORMATION CONTACT:

Michael Miller may be reached by telephone at (202) 502–8415, by fax at

(202) 273–0873, and by e-mail at michael.miller@ferc.gov.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC–520 "Application for Authority to Hold Interlocking Directorate Positions" (OMB No. 1902–0083) is used by the Commission to implement the statutory provisions of section 305 of the Federal Power Act (FPA) as amended by Title II, section 211 of the Public Utility Regulatory Policies Act of 1978 (PURPA)(16 U.S.C. 825d). Section 305(b) makes the holding of certain defined interlocking corporate positions unlawful unless the Commission has authorized the interlocks to be held and, requires the applicant to show in a form and manner as prescribed by the Commission, that neither public nor private interests will be adversely affected by the holding of the position. The Commission implements these provisions through its filing requirements in the Code of Federal Regulations (CFR) 18 CFR part 45. The information required under Part 45 generally identifies the applicant, describes the various interlocking positions the applicant seeks authorization to hold, provides information on the applicant's financial interests, other officers and directors of the firms involved, and the nature of the business relationships among the firms.

Two types of FERC–520 applications are provided for, that which is described in 18 CFR 45.8 as a "full" application and that which is described in 18 CFR 45.9 as an "informal" application for automatic authorization. Section 45.8 "full" applications are made by (1) an officer or director of more than one public utility; (2) an officer or director of a public utility and of a public utility securities underwriter; or (3) an officer or director of a public utility and of an electrical equipment supplier to that utility. Section 45.9 "informational applications" are made by (1) an officer or director of two or more public utilities where the same holding company owns, directly or indirectly, wholly or in part, the other public utility; (2) an officer or director of two public utilities, if one utility is owned, wholly or in part, by the other; or (3) an officer or director of more than one public utility, if such person is already authorized under Part 45 to hold different positions where the interlock involves affiliated public utilities.

Without this information collection, the Commission and the public would not be able to inquire into and determine whether public or private interests will be adversely affected by the holding of such positions.
