**U.S. ARMY CORPS OF ENGINEERS,
MOBILE DISTRICT**

**NOTICE OF AVAILABILITY FOR THE
DRAFT FINDING OF NO SIGNIFICANT IMPACT (FONSI) FOR THE
INTEGRATED FEASIBILITY REPORT AND ENVIRONMENTAL ASSESSMENT
CONTINUING AUTHORITIES PROGRAM
SECTION 14 EMERGENCY STREAMBANK AND SHORELINE PROTECTION**

SELMA, DALLAS COUNTY, ALABAMA

TO ALL INTERESTED PARTIES:

The U.S. Army Corps of Engineers (USACE), Mobile District requests your review and comment on the proposed action along the Alabama River for the Continuing Authorities Program Section 14 Emergency Streambank and Shoreline Protection Project, Selma, Alabama. The proposed action consists of re-grading the upper two-thirds of the eroding riverbank adjacent to the historic freight depot to a 1V:2.5H slope and then stabilizing it by placing an approximate 80 x 150 foot articulated concrete mat, with a small riprap toe at the base of the slope. All proposed activities will occur above the ordinary high water line and no effects to the Alabama River are anticipated. A copy of the draft FONSI and Integrated Feasibility Report and Environmental Assessment is located at <https://www.sam.usace.army.mil/Missions/Planning-Environmental/>. The document is being circulated to resource agencies and interested members of the public for a 15 day comment period.

Correspondence concerning this draft FONSI and Integrated Feasibility Report and Environmental Assessment should be directed to the District Commander, U.S. Army Corps of Engineers, Mobile District Post Office Box 2288, Mobile, Alabama 36628-001, Attention: CESAM-PD-EC. If you require additional information, please contact Ms. Angelia Lewis at (251) 694-4105, or by email at Angelia.V.Lewis@usace.army.mil.
