

*Mobile District, U.S. Army Corps of Engineers*

*Small and Disadvantaged Business*

*Utilization Office*

Mobile District two primary missions are civil and military. Our civil mission consists of waterways management to include dredging of rivers and harbors, park attendant services, lock and dam operation and operational maintenance (O&M). Our military mission includes design and construction on military installations in Alabama, Florida, Mississippi, Tennessee, and Central and South America. We also support Government agencies such as the National Guard Bureau, Army Medical Command, Federal Emergency Management Agency, Federal Bureau of Investigations, National Association Space Agency and Veterans Administration.
