PUBLIC NOTICE NO. SAM-2007-1430-MFM

**JOINT PUBLIC NOTICE
U.S. ARMY CORPS OF ENGINEERS**

**MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY
OFFICE OF POLLUTION CONTROL**

MISSISSIPPI DEPARTMENT OF MARINE RESOURCES

**GOEL APARTMENT COMPLEX
UNNAMED TRIBUTARY OF FRITZ CREEK
GULFPORT, HARRISON COUNTY, MISSISSIPPI**

TO WHOM IT MAY CONCERN:

This District has received an application for a Department of the Army permit pursuant to Section 10 of the River and Harbor Act of 1899 (33 USC 403), and Section 404 of the Clean Water Act (33 USC 1344). Please communicate this information to interested parties.

APPLICANT: Goel Investments, LLC
Attention: Mr. Amit Goel
6050 I-55 Frontage Road
Jackson, MS 39211

WATERWAY: Unnamed tributary of Fritz Creek, north of Three Rivers Road and adjacent to Crown Road in Section 26, Township 6 South, Range 11 West, Gulfport, Harrison County, Mississippi.

WORK: The applicant proposes to discharge 1.96 acres of fill material into jurisdictional wetlands for the purpose of constructing an apartment complex. The project will consist of 24 apartment buildings, 2 management buildings, streets, parking areas, drainage, and detention basin. The

apartment buildings will be composed to 2 and 3 bedroom units. Two parking spaces will be allocated for each apartment and will be located adjacent to each building for a total of 610 regular spaces. Handicap parking and sidewalks will be constructed for each building. A storm water detention pond will be constructed in the southeast corner of the development with a capacity of 98,010 ft³. The subdivision will be constructed on a 19.60-acre parcel. The area is bordered on the south by Three Rivers Road, on the north and west by undeveloped land and pasture on the east side. The Little Biloxi River is located about 0.8 miles to the north. The total amount of wetlands on the property is 4.79 acres. There are 2.83 acres of the wetlands that will be avoided. The development was designed to maximize the use of upland areas. The site is currently cleared of most vegetation except for the south east corner of the property containing the wetlands. The applicant proposes to mitigate for wetland impacts by purchasing the appropriate number of mitigation credits from a Corps-approved mitigation bank.

The applicant has applied for certification from the State of Mississippi in accordance with Section 401(a)(1) of the Clean Water Act, and upon completion of the required advertising, a determination relative to certification will be made. The applicant has certified that the proposed activity complies with and will be conducted in a manner that is consistent with the Mississippi Coastal Zone Management Program. A determination relative to consistency will be made by the Mississippi Department of Marine Resources.

This public notice is being distributed to all known interested persons in order to assist in developing facts on which a decision by the U.S. Army Corps of Engineers (Corps) can be based. For accuracy and completeness of the record, all data in support of or in opposition to the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition. The decision whether to issue a permit will be based on an evaluation of the probable impact, including cumulative impacts, of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered, including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food production, and in general, the needs and welfare of the people.

The Corps is soliciting comments from the public; Federal, State, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public

hearing and to determine the overall public interest of the proposed activity. Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for public hearings shall state with particularity, the reasons for holding a public hearing. Evaluation of the probable impacts involving deposits of dredged or fill material into waters of the United States will include the application of guidelines established by the Administrator of the U.S. Environmental Protection Agency.

The National Register of Historic Places has been consulted and no properties listed in or eligible for the National Register are known to exist which would be affected by the proposed work. This review constitutes the full extent of cultural resources investigations unless comment to this notice is received documenting that significant sites or properties exist which may be affected by this work, or that adequately documents that a potential exists for the location of significant sites or properties within the permit area. Copies of this notice are being sent to the State Historic Preservation Officer and the U.S. Department of the Interior, National Park Service, Division of Archeological Services.

Preliminary review of this application and the U.S. Department of the Interior List of Endangered and Threatened Wildlife and Plants indicates that the proposed activity will not affect listed endangered or threatened species, or their critical habitat.

Correspondence concerning this Public Notice should refer to Public Notice Number SAM-2007-1430-MFM and should be directed to the District Engineer, U.S. Army Engineer District, Mobile, Post Office Box 2288, Mobile, Alabama 36628-0001, Attention: Permit Evaluation Branch, with a copy to the Mississippi Department of Environmental Quality, Office of Pollution Control, Post Office Box 10385, Jackson, Mississippi 39289, and the Mississippi Department of Marine Resources, 1141 Bayview Avenue, Suite 101, Biloxi, Mississippi 39530, in time to be received not later than 21 days from the date of this notice. If you have any questions concerning this publication, you may contact this office at telephone number 251-690-2658 or by email at michael.f.malsom@sam.usace.army.mil.
