NAVIGATION BULLETIN NO. 04-38

NOTICE TO NAVIGATION INTERESTS:

**TENNESSEE-TOMBIGBEE WATERWAY**  
**MISSISSIPPI**

Reference is made to Bulletin No. 04-34 dated August 27, 2004, concerning shoaling at Navigation Mile 410. The Corps of Engineers floating plant **R. W. DAVIS** completed excavation of an approximately 120-foot channel on the east side on the waterway to allow traffic to transit. Inland Dredging Co.'s dredge "INGENUITY" arrived on site and commenced dredging operations on August 28, 2004, to remove the remaining shoal.

Mariners are urged to exercise extreme caution when transiting this area. The dredge can be reached on VHF-FM Channels 13 and 16.

For further information concerning this matter, please contact the Tenn-Tom Project office at (662) 327-2142.

KENNETH P. BRADLEY  
Chief, Navigation Section
