PUBLIC NOTICE NO. SAM-2007-1287-HWL

DATE: September 29, 2008

JOINT PUBLIC NOTICE  
U.S. ARMY CORPS OF ENGINEERS  
AND  
STATE OF ALABAMA  
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

Proposed Wetland and Stream Fill for a Sand and Gravel Mine,  
Marion County, Alabama

TO WHOM IT MAY CONCERN:

This District has received an application for a Department of the Army permit pursuant to Section 404 of the Clean Water Act (33 USC 1344). Please communicate this information to interested parties.

**APPLICANT:** APAC Mississippi, Inc.  
Post Office Box 24508  
Jackson, Mississippi

**AGENT:** Thompson Engineering  
909 George Wallace Boulevard  
Tuscumbia, Alabama 35674

**LOCATION OF WORK:** Sweetwater Creek at 7638 County Highway 56, Latitude: 34°16'56" N, Longitude: -88°10'43" W, Marion County, Alabama

**PROJECT PURPOSE:** The basic project purpose is to construct a sand and gravel mine. The overall project purpose is to provide sand and gravel to the surrounding area.

**PROPOSED WORK:** This project is located within the geographic boundaries of Mississippi and Alabama. The proposed work will be divided between two public notices to facilitate water quality certification for each state. The work to be conducted in Mississippi will impact 1.6 acres of wetlands and construction of an impoundment on and intermittent stream. The Alabama portion of the project will impact will impact 0.1 acres of wetlands and 100 linear feet of Sweetwater Creek for a road crossing.

**AVOIDANCE & MINIMIZATION:** The applicant has avoided 0.48 acres of wetlands, 345 linear feet of ephemeral stream, 1,600 linear feet of intermittent stream and 5,945 linear feet of perennial stream.

**CESAM-RD-I**

**DATE: September 29, 2008**

**PUBLIC NOTICE NUMBER: SAM-2007-1287-HWL**

The applicant states this site was chosen due to availability of target resources and the ease in which those resources can be mined. The Corps has not verified the adequacy of the applicant's avoidance statement at this time.

The avoided areas listed above are found within Mississippi and Alabama.

**MITIGATION:** The applicant has stated the following concerning mitigation for unavoidable impacts to Waters of the United States: The applicant proposes to impact and provide mitigation for 1.6 acres of medium quality wetlands and 50 feet of intermittent stream for the impacts in Mississippi. Mitigation will consist of purchase of the appropriate amount of mitigation credits from an approved mitigation bank in Mississippi. The applicant proposes to mitigate for 0.1 acre of wetlands and 100 linear feet of perennial stream impacted in Alabama at an Alabama Mitigation Bank. The Corps has not verified the adequacy of this mitigation proposal at this time.

The applicant has applied for certification from the State of Alabama in accordance with Section 401(a)(1) of the Clean Water Act, and upon completion of the required advertising, a determination relative to certification will be made.

This public notice is being distributed to all known interested persons in order to assist in developing facts on which a decision by the U.S. Army Corps of Engineers (Corps) can be based. For accuracy and completeness of the record, all data in support of or in opposition to the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition. The decision whether to issue a permit will be based on an evaluation of the probable impact, including cumulative impacts, of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered, including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food production, and in general, the needs and welfare of the people.

The Corps is soliciting comments from the public; Federal, State, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general

environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for public hearings shall state with particularity, the reasons for holding a public hearing.

Evaluation of the probable impacts involving deposits of dredged or fill material into waters of the United States will include the application of guidelines established by the Administrator of the U.S. Environmental Protection Agency.

The applicant has coordinated the project with the Alabama Historical Commission's (AHC) State Historic Preservation Office (AHC 07-1044). A Phase I and Phase II Cultural Resource Survey have been completed on the subject site." Findings of those surveys were provided to the State Historic Preservation Officer. Details of the findings can not be disclosed in this public notice. This review constitutes the full extent of cultural resources investigations. Copies of this notice are being sent to the State Historic Preservation Officer and the U.S. Department of the Interior, National Park Service, Division of Archeological Services. If any unknown cultural resources are discovered during construction, all activities will cease and the AHC will be contacted immediately.

Preliminary review of this application and the U.S. Department of the Interior List of Endangered and Threatened Wildlife and Plants indicates that the proposed activity will not affect listed endangered or threatened species, or their critical habitat.

Correspondence concerning this Public Notice should refer to Public Notice Number **SAM-2007-1287-HWL**, and should be directed to the District Engineer, U.S. Army Engineer District, Mobile, 218 Summit Parkway, Suite 222, Homewood, Alabama, 35209, with a copy to the Alabama Department of Environmental Management, Post Office Box 301463, Montgomery, Alabama 36130-1463. Comments should be received no later than **30 days** from the date of this Public Notice
