MEMORANDUM THRU
PD-FP
PD-F

FOR PD-FE

SUBJECT: East End Dauphin Island, Alabama, and Dauphin Island
Shoreline, Alabama, Section 14 Studies

1. For the past year the Dauphin Island Park and Beach Board has had severe erosion problems at 2 separate property locations on Dauphin Island. One is at Fort Gaines on the east end and the other is at the public park with the fishing pier. We have recently been allocated nominal funding to initiate the Section 14 studies shown in the subject, with a view towards determining possible solutions for their problems.
2. We need to get started on these, but it will be about mid-March before I can schedule a site visit to the island to inspect these sites. If at all possible, we should make this inspection with the full study team. Please expeditiously appoint the PD-FE study team member and give me the name as soon as possible.
3. Charge numbers are being set up and should be available by the time we can arrange the trip. If you have any questions, please do not hesitate to call me.
