MEMORANDUM FOR RECORD

ATTENDEES: Conference Call – USACE (Brad Crosson, Elizabeth Hamilton); ADEM (Scott Hughes); NextEra (Raymond Loving); EDGE (Andrew Grammer); John Hagood

SUBJECT: Hagood had water quality certification concerns and would like to know specifics on what would be required should IP review be required. It was explained to Mr. Hagood that the WQC would be dependent on what type of permit the project would be reviewed under, but would be handled between the USACE and the ADEM as part of the Joint Application review. IP application information had been previously provided via email to Mr. Grammer.
