Subject: RE: SELC extension request and request for public hearing for Public Notice SAM-2020-00353-ES.

Ms. Stokes,

Thank you for providing a response to the Public Notice for file number, SAM-2019-00914-ES. It has been added to the Administrative Record. After consideration of your comments and some recent changes to the project proposed by the applicant, our office agrees the Public Notice needs additional supplemental information. At the end of the Public Notice review and comment period on Wednesday August 26, we will be requesting updated information from the applicant which will include appropriate maps and updated impact tables. Following review of the additional information, should we find the project still necessitates review under the Standard Permit process, we will issue a Re-Notice that will include more detailed project location information, site specific impact area maps, and areas proposed to retain permanent fill. We apologize for the inconvenience and look forward to coordinating in the near future.

Respectfully,

Elizabeth A. Hamilton
U.S. Army Corps of Engineers

Subject: [Non-DoD Source] SELC extension request and request for public hearing for Public Notice SAM-2020-00353-ES.

Ms. Hamilton,

Attached please find the Southern Environmental Law Center's request for a public hearing as well as an extension for the public comment deadline for Public Notice SAM-2020-00353-ES, a proposed 53-mile natural gas pipeline. Without a map showing the water impacts, the public cannot meaningfully comment.

Regards,

Sarah Stokes
