Re: Approval of Four Remedial Action Completion Reports for the Defense Depot,
Memphis, Tennessee (DDMT)

Dear Mr. Dobbs:

U.S. Environmental Protection Agency, Region 4 (EPA), staff have previously approved Interim and Final Remedial Action completion Reports (IRACR and RACR) at the Former Memphis Defense Depot (DDMT). Such approvals were given as follows:

- September 22, 2005 - Approval of the Interim Remedial Action Completion Report (IRACR) for Phase I of the Selected Remedy at Dunn Field (Operable Unit (OU) 1
- August 25, 2006 - Approval of the Remedial Action Completion Report for the Disposal Sites Excavation Phase of the Selected Remedy at Dunn Field (OU1)
- November 2, 2009 - Approval of the Dunn Field Source Areas Interim Remedial Action Completion Report, Rev. 1 (OU-1)
- March 23, 2010 - Approval of the Interim Remedial Action Completion Report, Rev. 1, for the Main Installation (OUs 2, 3, and 4)

As part of EPA's closeout process for NPL sites, these reports ultimately must be approved at the Branch Chief level. After discussing these reports with the Remedial Project Manager, including the scope of the remedial actions implemented as compared to the elements of the selected remedies, I agree with prior staff approvals for the IRACRs and RACR listed above. If you have any questions, please contact Turpin Ballard of my staff at 404/562-8553.

Sincerely yours,

A handwritten signature in cursive script, reading "Arthur L. Collins", is positioned above the typed name.

Arthur Collins, Chief
Federal Facilities Branch
U.S. EPA Region 4

Cc: Jamie Woods, DOR/TDEC/Memphis
