Re: Intermediate Aquifer Well Installation Report dates June 30, 2010

Dear Mr. Dobbs:

The U.S. Environmental Protection Agency, Region 4 (EPA) has reviewed the referenced document and concurs with the recommendations for the new well locations. Please note that, should the results from the proposed additional wells indicate a need for further characterization, this would extend the well network outside the Depot boundary. DLA/Army should be prepared for such an eventuality. If you have any questions, please contact me at 404/562-8553.

Sincerely yours,

Wm. Turpin  
Ballard
