**Re: 2010 Annual Long-Term Monitoring Report
Main Installation - Defense Depot, Memphis Tennessee (DDMT)**

Dear Mr. De Back,

TDEC-DoR has reviewed the contents of the Annual Long-Term Monitoring Report for the Main Installation - DDMT, as compiled by T. Holmes (HDRinc), and approves the recommendations as outlined. These include the abandonment of piezometer PZ-06 and substitution with MW-53, a change from biennial to semi-annual sampling of MW-143 with possible well reclassification, and the quarterly sampling and classification evaluation of the new sentinel well. If there are questions or comments, please contact me at (901) 371-3041 or at Jamie.woods@tn.gov.

Sincerely,

Jamie A. Woods, P.G.
Project Manager
Division of Remediation
Memphis Environmental Field Office
