Dear Ms. Jones:

The U.S. Environmental Protection Agency (EPA) has received and reviewed the Department of Army, Defense Depot of Memphis, Tennessee April 2015 Annual Long Term Monitoring Summary Report.

EPA approves this report with the understanding that additional conversations regarding the efficacy of groundwater remedial actions will be discussed following the supplemental remedial investigation and prior to decision points associated with future remedial actions. EPA further notes that additional discussion is necessary at a future date to discuss the potential for offsite/onsite migration with respect to Dunn Field in addition to potential conversations with respect to monitor well classification. EPA appreciates the US Army's willingness to address EPA concerns in subsequent reports and would also like to extend it's appreciation for the US Army's work in the upcoming remedial investigation and efforts to date on the DDMT Site.

Should you have any questions or concerns, please feel free to call me at on my cell number 404-229-9500.

Sincerely,

Diedre Lloyd
