

Notice of Public Comment Period and Public Meeting

The Memphis Depot

Re: Chemical Warfare Material Removal at Dunn Field

Be advised that the Memphis Depot will hold a public comment meeting to allow citizens the opportunity to provide comments on proposed cleanup alternatives for the Chemical Warfare Material (CWM) removal at Dunn Field. This area is surrounded by Dunn, Hays, Rozelle and Person streets.

The Engineering Evaluation/Cost Analysis (EE/CA) is a document that describes the environmental condition of an area and provides cleanup alternatives. This EE/CA will be available for public review at our four Information Repositories at the Memphis Depot, Cherokee Branch Library, Main Branch Library and the Memphis/Shelby County Health Department beginning June 10, 1999 for a 30-calendar-day period. The public can respond in writing during this period to:

Mr. Shawn Phillips
BRAC Environmental Coordinator
The Memphis Depot
2163 Airways Blvd., Bldg. 144
Memphis, TN 38114-5210

Verbal comments to this EE/CA can be made on the Depot's Environmental Information Line at (901) 544-0618.

Please come to the public comment meeting to:

- Learn about this cleanup project at Dunn Field
- Be involved in the decision making process.
- Gain information for a better understanding of environmental issues in your neighborhood
