Memphis Depot Chemical Warfare Materiel (CWM) Action Weekly Briefings Moved To New Location

Beginning Wed., July 12, the regular weekly briefings for the Memphis Depot Chemical Warfare Materiel (CWM) removal action will be held in the Community Outreach Room, Building 144, Memphis Depot Business Park Administration Building, between gates 1 and 2, 2163 Airways Blvd., Memphis, Tenn. The U.S. Army Corps of Engineers and its contractors will continue the briefings in this new location at 10 a.m. every Wednesday, until further notice.

"The purpose of the weekly briefings is to provide members of the community with regular opportunities to access the most recent information on the CWM removal, and to have their questions answered as we move through the project," said Clyde Hunt, On-Site coordinator for the Corps of Engineers. "Because of the summer heat, we decided to move the location indoors to ensure the comfort of those who wish to attend these sessions."
