Dear Mr. Foster,

The United States Environmental Protection Agency (USEPA) has completed its regulatory review of the Dunn Field West Vapor Intrusion Sampling and Analysis Plan (SAP), Revision 1 for the Defense Depot Memphis, Tennessee (DDMT); submitted by the United States Army (USARMY) in January 2024.

The USEPA acknowledges that the changes incorporated into the SAP, Revision 1, satisfactorily addressed the regulator's concerns. Consequently, the USEPA approves this version as Final and requests that it be added to the Administrative Record. As always, the USEPA recognizes the USARMY for its efforts to further investigate the DDMT environmental conditions.

If you have any questions about this letter, please contact me via email at martinez-torres.fernando@epa.gov or at 404-695- 4991.

Sincerely,

Fernando Martinez Torres
