RE: Draft Baseline Risk Assessment for Golf Course Impoundment  
TDEC/DSF #79-736, cc 82

Dear Mr. Phillips:

The Tennessee Division of Superfund (TDSF) Memphis Field Office (MFO), on behalf of the Tennessee Department of Environment and Conservation, has completed review of the above-referenced document received in this office on February 5, 1997.

Pursuant to the DSMOA and FFA, the Division has the following comments on this document. If any comment does not require a replacement page insert as a result of revisions, a written response to that comment will be sufficient.

General Comments

The document is clear and logical although brief. It appears to adequately address the issue of whether contamination of the Depot Golf Course ponds poses an unacceptable risk. The Division concurs with the recommendations expressed in Section 9.0.

Specific Comments

*Figure 3-1, page 3-2*

Please add an explanation of the golf hole symbols to the legend.

Please show the location of lake and pond overflow points as well as discharge locations.

*Section 9.0, page 9-2, third sentence*

The word "fore" is used instead of "for."

Should you have any questions or concerns regarding this review please call me at (901) 368-7957.

Very truly yours,

Terry R. Templeton, P.G.  
Project Manager  
TDEC/DSF-MFO
