PUBLIC INVITED TO DEPOT COMMUNITY INFORMATION SESSION

(Memphis, TN) The Depot's Environmental Division is hosting a Community Information Session on February 19, 1998 at Corry Junior High School to update community members on the progress of the environmental activities taking place at the site.

Representatives from the U.S. Environmental Protection Agency (EPA), the Tennessee Department of Environment and Conservation (TDEC), the Restoration Advisory Board, the Depot's Environmental Division, the Army Corps of Engineers, the Memphis/Shelby County Public Health Department, and other community groups and agencies will be hosting information displays highlighting different aspects of our Environmental Restoration Program.

"This Community Information Session will be set up like an open house so that people can come in, walk around the school cafeteria and look at the information displays at their leisure, and discuss any of their questions or comments about our environmental activities with representatives from all of the participating groups and agencies," said Glenn Kaden, Base Realignment and Closure (BRAC) Environmental Coordinator at the Depot.

The Community Information Session will take place in the school cafeteria from 6:00 p.m. to 9:30 p.m., at Corry Junior High School, located at 2230 Corry Road, Memphis.

The monthly meeting of the Restoration Advisory Board (RAB) will also take place in a separate room at the school from 6:00 p.m. to 7:30 p.m., and the public is invited to attend. The RAB is comprised of community members and agency representatives who meet monthly to review and discuss technical documents and work plans relating to the Environmental Restoration Program.

We would like to invite all members of the media to attend our Community Information Session. If you have any questions, please contact Glenn Kaden at (901) 544-0618.

COMMUNITY INFORMATION SESSION

Location: Corry Junior High School
2230 Corry Road, Memphis
