## ADMINISTRATIVE RECORD COVER SHEET

AR File Number 36

JUN 11 1993

DDMT-WP

SUBJECT: Federal Facilities Agreement (FFA)  
EPA RCRA Permit No. TN4 210 020 570

Mr. Jon Johnson  
Chief, Federal Facilities Board  
USEPA, Region IV, 4WD-PPB  
345 Courtland St., N.E.  
Atlanta, GA 30365

Dear Mr. Johnson:

Captain F. A. Williams, Commander of Defense Distribution Region East (DDRE), recently wrote you and advised you of the disestablishment of the Defense Distribution Region Central (DDRC) and his assumption of the regional responsibilities for the Defense Logistics Agency distribution mission for the Eastern United States. In accordance with that action, I, as the Commander of the Defense Distribution Depot Memphis, have been given the responsibility by Captain Williams of Commander of the Defense Logistics Agency Memphis Installation. Colonel Murphy, the previous Installation Commander and DDRC Commander, has transferred to another duty station. As the Installation Commander, I am responsible for environmental resource protection on the Installation. I strongly support the environmental clean up action that your staff and my staff are working together and am anxious to begin clean-up actions.

I understand a "cleaned up" draft of the FFA is being prepared by EPA and that EPA's objective is to have a draft satisfactory to all parties completed by mid-July 1993. Would you please advise me of the approximate date we can expect this draft version to review? The increased interest in our facility clean-up efforts makes it even more imperative that an agreement be finalized as agreed.

Sincerely,

SIGNED

C. MICHAEL RUST  
Colonel, USA  
Defense Distribution Depot Memphis  
Commander

CC:  
CPT Dell'Orco, OACE Huntsville  
Mr. Bowers, TDEC Off. of Solid Waste  
Mr. English, TDEC  
Ms. Drew, EPA

Randy Wilson/9 Jun 93/4910/cb
