To Our Valued Depot Area Neighbors Near The Following Areas:

1800 block of Rozelle Street

Meadowhill Street

Meadowhill Cove

Person and Ragan Streets

(January 27, 1999) The Depot is continuing our ongoing cleanup program and will be sampling groundwater monitoring wells during the day, February 1-5. The purpose of the groundwater sampling is to monitor the quality of the groundwater in the Depot area. The information gained from the sampling efforts will be used to ensure the recently installed groundwater pumping system is working properly.

The work is being done by the Depot's contractor, OHM Remediation Services. We apologize for any inconvenience or disturbance that may result from the team working near your home next week.

These sampling efforts are all a part of the Depot's commitment to restore, reuse and revitalize this facility. We encourage you to attend community meetings and call us with input and suggestions. Our next Restoration Advisory Board (RAB) meeting is Thursday, February 18, 1999 at 6 p.m. in the Conference Room, Building 144 at the Depot. Park at Gate 1 and enter through the side door.

If you have further questions, please call Alma Black Moore, Community Relations Specialist, at (901) 544-0613.
