## Neighborhood Notice

### Asphalt Road Construction Begins on Dunn Field

(December 1998) As part of the Depot's ongoing cleanup program and in response to concerns from Depot neighbors about dust, the gravel road on Dunn Field is being replaced by an asphalt road. Work began December 1 and is expected to be completed the first part of 1999.

S&W Asphalt Paving Company, Inc., a local minority company, has been awarded the contract. Mr. Floyd Veasley is President of S&W Paving Company, Inc. The road construction project consists of earthwork, paving, turf establishment and watering operation to help minimize the dust.

You may see the S&W team out on weekends. Once their work begins, it is common practice to work until the project is complete. S&W is doing the work with oversight from the U.S. Army Corps of Engineers - Mobile, Alabama.

These efforts are all part of the Depot's commitment to restore, reuse and revitalize this facility. We encourage you to attend community meetings and call us with input or suggestions. Our next Restoration Advisory Board (RAB) meeting is Thursday, January 21, 1999 at 6 p.m. in the Conference Room, Building 144 at the Depot. Park at Gate 1 and enter through the side door.

**If you have further questions, please call Alma Black Moore, Community Relations Specialist, at (901) 544-0613.**
