

THE MEMPHIS DEPOT TENNESSEE

ADMINISTRATIVE RECORD COVER SHEET

AR File Number 434

MID-SOUTH

By Larry Coyne

***Depot wells***

John Crawford of Tri-State Testing guides a drill into one of 20 well sites at Defense Depot Memphis, where federal officials have begun a yearlong study of possible groundwater contamination. This well is being drilled on property used for three decades in hazardous waste disposal. The wells should be installed by mid-March.
