SUBJECT: Notification of Public Exhibition and Discussion

Dear Community Member:

During the past several months, many of you have become aware of the environmental problems at Defense Depot Memphis, Tennessee. Many questions and concerns have been brought forward which we are working to address. Several different government agencies, such as the Army Environmental Hygiene Agency and the U.S. Army Corps of Engineers, have been assisting us in addressing your questions and concerns.

On August 10, 1993, we will be conducting a Public Exhibition and Discussion regarding the Depot's history, site restoration activities up to date, environmental and health risk assessment, and future plans for site restoration activities. We will present information in the form of posters. We have invited representatives of the Environmental Protection Agency, the Army Environmental Hygiene Agency, the Agency for Toxic Substances and Disease Registry, the Memphis/Shelby County Health Department's Pollution Control Division, the state and local Division of Superfund, the U.S. Army Corps of Engineers, and the Defense Reutilization and Marketing Organization to be available to talk with you.

The Public Exhibition and Discussion will be held at Hamilton High School in two sessions. The first session will be from 3 p.m. until 5 p.m. The second session will be from 6 p.m. until 8 p.m. You are invited to join us anytime during the two sessions. We encourage you to come early to view the information and talk with the different government agency representatives.

Sincerely,

C. Michael Rust  
Colonel, USA  
Commander
