8 NOV 1993

Dear Community Member:

During the week of 8-12 Nov 93, the Defense Depot Memphis will be taking samples from existing monitoring wells on and off the Depot. The purpose of this sampling is to obtain recent water quality information which will be used to further define the existing groundwater problems. The information will also be used in a groundwater clean-up design.

A report containing the sample analyses will be issued about 60 days after the completion of the sampling effort. A copy of the report will be placed in the Depot's information repository located at the Memphis/Shelby County Library - Main Branch located on the corner of Peabody Avenue and McLean Avenue.

If you have any questions or concerns regarding the sampling effort, please contact Denise Cooper at (901)775-4379.

C. MICHAEL RUST
Colonel, USA
Commander
