Dear Mr. Smith:

Thank you for attending the Public Exhibition and Discussion and for your letter of August 18, 1993. We appreciate your interest in the Depot's site restoration program and your concern for the surrounding community.

I appreciate your suggestions to improve our public meeting format. The Environmental Protection Branch, which manages the site restoration program, has been looking at other public meeting formats which will best suit the needs of our audience. The branch is leaning toward a format which incorporates both a briefing and a poster exhibition and discussion.

In regards to your suggestion of a chemical siren at the Depot, the Environmental Protection Branch has begun working toward the purchase of such a siren. We agree this is a good idea. We will be coordinating on a siren location with the Local Emergency Planning Committee.

Enclosed you will find the information Ms. Denise Cooper discussed with you regarding the Technical Assistant Grant. We have also sent this information with your name and phone number to several residents around the Depot who have shown great interest and concern about the Depot's environmental activities.

If you have any other questions or concerns, please contact Ms. Denise Cooper at (901) 775-4379.

Sincerely,

C. Michael Rust
