Re Applications for Citizen Review Committee

Please forward application forms to the following people.

The above noted list is a partial list of those citizens who may be interested in serving on the committee. I would like to note that the Peace and Justice Center feels that the citizen review committee membership process is being needlessly rushed. This attempt at a quick turn around has no justification except that of convenience. The Depot has known of the contamination for over 10 years, why is the notice and cut off period for the citizen review group only 7 days long. In saying 7 days, I am assuming that somebody saw the paper on April 7th and personally went to the Depot to get an application on that day, and knew that they could make a 2 year commitment, and thus file their application by the 14th of April. This protest is for the record of the Depot clean up project. The deadline should be extended to the end of May 1994 at least.

Sincerely,

  
Larry J. Smith  
Toxics Project
