Dear Depot Neighbor

Mid-South Transport will continue removing a fluorspar pile at Dunn Field managed by the Defense National Stockpile Center (DNSC). Work to sell and remove the piles is progressing ahead of schedule and should be completed by June 1998. To date, two fluorspar piles and the two bauxite piles have been removed, and work has begun to remove three other fluorspar piles.

You should expect to see loading equipment on Dunn Field and Dunn Avenue beginning Monday, December 15, 1997 until Friday, December 19, 1997. The Depot appreciates your patience during this removal process. We are taking appropriate actions to control the dust caused during the removal process by the heavy equipment. The Depot and DNSC will ensure that the stockpile material and roads are dampened with water and that trucks travel slowly in order to reduce the amount of dust.

If you have any questions or concerns about the removal of these stockpiles please feel free to call the environmental office at 544-0618.

Sincerely,

G L KADEN, R E M  
BRAC Environmental Coordinator
