

THE MEMPHIS DEPOT TENNESSEE

ADMINISTRATIVE RECORD COVER SHEET

AR File Number 531

MEMPHIS DEPOT CARETAKER Memphis, Tennessee

DEC 8 1997

NOTIFICATION OF GROUNDWATER SAMPLING

The Memphis Depot Caretaker Staff would like to inform you that personnel from the United States Geological Survey (USGS) will be on Rozelle Street on Tuesday, December 9, 1997. The USGS personnel will be installing ground water elevation recording devices on one of the Depot monitoring wells along Rozelle Street. This device will be left at the monitoring well for the next several months. The groundwater at this well is usually anywhere from 60 to 90 feet below the ground surface. This water is not part of your drinking water supply and is not used by grass or gardens.

The installation of the elevation recording device will take about two hours. The USGS Manager is Larry Thomas.

Thank you for your cooperation. If you have any questions, please contact Mr. Shawn Phillips at 544-0611.

Glenn Kaden

BRAC Environmental Coordinator
Memphis Depot Caretaker
