Re EPA Concurrence on the Five-Year Review Report for the Interim Remedial Action at the Defense Depot, Memphis Tennessee, Dunn Field Site

Dear Captain Ritchie:

A Five-year review of the referenced remedial action is required under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). In cooperation with your staff at the Memphis Depot Superfund Site, the United States Environmental Protection Agency (EPA) Region 4 participated in development of the Five-Year Review Report for the Interim Remedial Action at Dunn Field. This review was performed in accordance with EPA guidance, and the resulting document meets the statutory requirements for such a review.

EPA concurs with the findings of the five-year review of this interim remedial action. We look forward to working with the Defense Logistics Agency and the Tennessee Department of Environment and Conservation to complete all remedial actions necessary to facilitate the transfer and reuse of this BRAC property.

Sincerely yours,

A handwritten signature in cursive script, reading "Winston A. Smith, acting".

Winston A. Smith
Director
Waste Management Division
U.S. EPA Region 4

cc. James Morrison, TDEC/Memphis
