CH2MHill plans to conduct an aquifer test around the former Treatability Study Area 1 (Barnhart property) beginning next Monday, January 12, 2004 and concluding on January 17, 2004. The test will be conducted on MW120 and there will be approximately ten observation wells. We will have two persons on site at all times during the testing period.

CH2MHill will also contact Barnhart this week to let them know that we will be on location during that time. Thank you for your time and consideration.
