Subject: Draft Revised Master Schedule for the Memphis Depot

Dear Sirs:

Defense Logistics Agency (DLA) submitted a draft revised master schedule on June 7, 2004 for both the Main Installation (MI) and Dunn Field at the Memphis Depot. Mark-ups to the schedule were received from Mr. Ballard on June 15, 2004. Additional comments were received during the BCT conference call that same day. The schedule has been revised to reflect the comments received and the additional discussion. For ease of reference, completed activities have been 'rolled-up' and only the top task is shown.

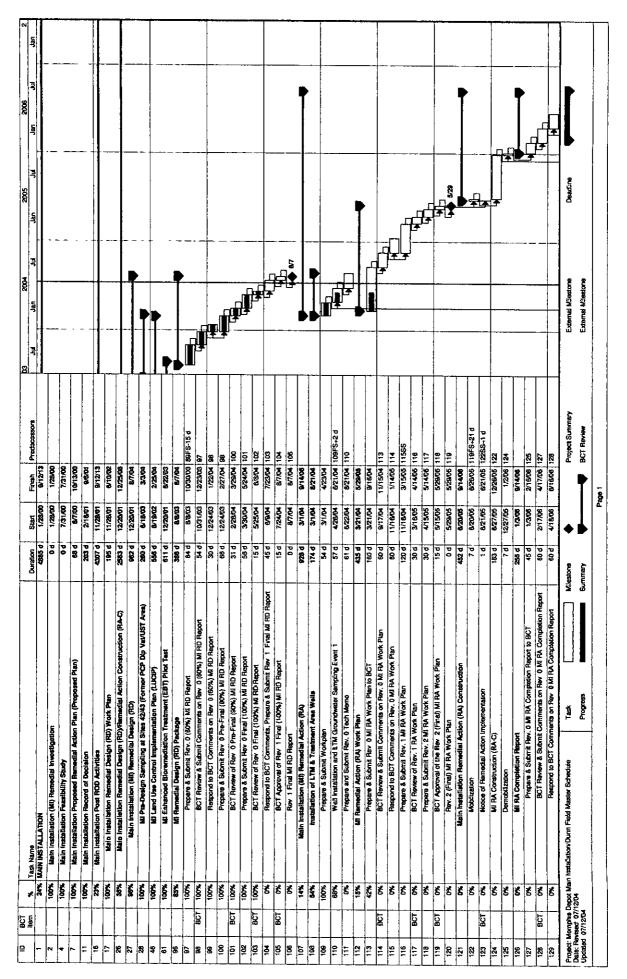

The following changes have been made:
Added Rev 3 for MI RD
Changed submittal date for MI RAWP
Changed timing for Notice of Remedial Action Implementation to be 1
day after start of Mobilization for RA Construction (MI, Disposal Sites, PRB, ZVI, and SVE)
Changed final approval of RA Completion Reports and Site-wide
Preliminary Closeout Report from BCT to EPA (MI, Disposal Sites, PRB, Source Area)
Changed final approval of OPS Determination from BCT to
EPA/Regional Administrator (MI, Dunn Field)
Removed general task for Offsite Access Agreements and added Offsite
Access tasks for PRB RA and Source Area RA. Task starts with submittal of Intermediate RD. If access is not available 74 days later (shortly after BCT comments due); access would be sought through regulatory channels.

Added SVE Loess Treatability Study Changed BCT submittal date for Source Area RD Changed BCT submittal date for Remedial Action Sampling and Analysis Plan
