Re: Notification of Change in TDEC Project Management

As you are aware, Evan Spann of the Tennessee Department of Environment and Conservation (TDEC), Division of Remediation, Memphis Field Office has actively participated in the technical review of documents, field oversight of remedial actions, and several BCT meetings and RABs. His transitioning period of learning site conditions and past remedial decisions is near completion. Please be advised that effective October 21, 2005, Evan Spann will be replacing me as the TDEC BCT Representative and Project Manager to former Defense Distribution Depot, Memphis Tennessee.

This communiqué is to serve as TDEC's official notification of change in Project Management as per section XIII Project Manager, paragraph b of the signed Federal Facilities Agreement between the Defense Logistics Agency, U.S. Environmental Protection Agency, and TDEC.

Evan's contact information is as follows:

Evan W Spann, P.G.
Environmental Project Manager
TDEC - Division of Remediation
2510 Mt. Moriah Rd., Suite E-645
Memphis, TN 38115-1520
(901) 368-7916

Please know that I have enjoyed my role as the State BCT representative for DDMT. Also know that I will be available to the BCT for clarification of historical decisions, when needed. Further, I have every confidence that Evan will be a positive asset to the BCT. If you have any question or concerns, please do not hesitate to call, (615) 532-0910.

Very truly yours,

James W. Morrison, PG
Technical Programs Manager
TDEC - Division of Remediation
