Re: BRAC Cleanup Plan, Version 9/Site Management Plan and Annual Schedule Update for the Defense Depot, Memphis, Tennessee (DDMT)

Dear Mr. Dobbs:

The U.S. Environmental Protection Agency, Region 4 (EPA) hereby provides supplemental comments on the referenced document.

1. Pursuant to the agreement at the show-cause meeting on April 27, 2006, please change the date for submittal of the Draft-Final Remedial Action Completion Report for the Dunn Field Disposal Sites to September 1, 2006. This is the date on which EPA expects to receive the document, not the date the transmittal letter is signed.
2. At the show-cause meeting, DLA provided a table of major milestones at DDMT through FY 09. Please include a similar table in the BCP as Figure 5-2. This table should focus on the deadlines for draft primary documents, and the dates for the start of field work called for in the master schedule. EPA expects to use this schedule as a quick-reference for upcoming primary document reviews and to plan site visits for field oversight activities.

If you have any questions, Please contact me at 404/562-8553.

Sincerely yours,

Wm. Turpin Ballard, RPM
Federal Facilities Branch
