Re: Notification of 20-day Extension on Review Period for Source Areas Design

Dear Mr. Dobbs:

Under Section XV.B.3 of the DDMT Federal Facilities Agreement (FFA), I and hereby providing notice that EPA will invoke the automatic 20-day extension for its review of the Intermediate (60%) Dunn Field Source Areas Remedial Design. My internal reviewers have not completed their reviews, although I expect them to finish this week. The additional time will be needed to evaluate all comments prior to including them in a transmittal to DLA.

I note that, although the schedule shows comments due on 6/19, the 60-day comment period actually runs from the date EPA received the document (4/20/2006), not the date on which DLA signs the transmittal letter. Therefore, the extension period would run through July 10. I expect, however, to get comments to DLA several days prior to our next BCT meeting.

If you have any questions, Please contact me at 404/562-8553.

Sincerely yours,

Wm. Turpin Ballard, RPM
Federal Facilities Branch
