Re: Approval of Revision 3 of the Source Areas Remedial Design element of the Dunn Field Remedial Action, Defense Depot, Memphis Tennessee.

Dear Mr. Dobbs:

The U.S. Environmental Protection Agency, Region 4 (EPA) has reviewed Revision 3 of the Source Areas Remedial Design (SARD) element of the Dunn Field Remedial Action, including a figure generated as a result of EPA comments to clarify the process for demonstrating compliance with selected cleanup levels in the subsurface soil (loess and fluvial deposits). With the addition of this figure into the final submittal, EPA hereby approves the SARD.

If you have any questions, Please contact me at 404/562-8553.

Sincerely yours,

Wm. Turpin Ballard, RPM
Federal Facilities Branch
