Subject: Request for Extension, Dunn Field Revised Proposed Remedial Action Plan

Dear Sirs:

As provided in Section XXII of the Defense Depot Memphis Tennessee (DDMT) Federal
Facilities Agreement (FFA), the Defense Logistics Agency (DLA) hereby requests an extension
to the schedule for the Dunn Field Revised Proposed Remedial Action Plan. An extension of 15
days is requested for submittal of Revision 0 of the document, which will change the submittal
date of 21 May 2007 to 5 June 2007; the submittal date of the final version will remain 31
December 2007. This extension will result in a delay in initial submittal of the Dunn Field ROD
Amendment from 20 July 2007 to 27 July 2007; the submittal date for the final version will
remain 29 April 2008.

DLA believes good cause, as defined in Section XXII.B. of the FFA, exists because the delay will
allow incorporation of additional information from the Off Depot Remedial Design and will
allow project staff to continue progress on other remedial actions at DDMT. The extension was
discussed and tentatively approved at the BRAC Cleanup Team (BCT) meeting on 19 April 2007.
Should you have any questions regarding this request, please don't hesitate in contacting me at
(717) 770-6950 or the e^{2}M Project Manager, Tom Holmes, as (404) 237-3982.

MICHAEL DOBBS
Chief, Environmental Safety and Occupational
Health
