RE: ADEM Review Comments

Draft Final - Site Investigation Report, Fill Area West of Range 19, Parcel 233(7), dated September 22, 2004 Fort McClellan, Calhoun County, Alabama
Facility I.D. No. AL4 210 020 562
DSMOA Fund Code 535-232-0445

Dear Mr. Levy:

The Alabama Department of Environmental Management (ADEM or the Department) has reviewed the subject *Draft Final - Site Investigation Report for the Fill Area West of Range 19*, which included the Army's responses to ADEM and EPA's comments dated June 11, 2004 and January 22, 2004, respectively.

The Army has adequately addressed the Department's concerns regarding the potential for chromium and nickel to contaminate groundwater at Parcel 233(7) (Response to ADEM Comments, ADEM General Comment 1). The Army has shown that there are no significant chemical constituents present at the site that would pose an unacceptable risk to human health or the environment.

ADEM concurs with the Army's recommendation for "No Further Action" and unrestricted land reuse with regard to CERCLA related hazardous substances at the Fill Area West of Range 19, Parcel 233(7).

For any questions or concerns regarding this matter, please contact Ms. Shana Decker via email at sdecker@adem.state.al.us or at (334) 270-5646.

Sincerely,

Stephen A. Cobb, Chief
Governmental Hazardous Waste Branch
Land Division

SAC/CHC/SD/mal
