RE: ADEM Review and Concurrence: *Corrective Measures Effectiveness Report, September 2019 to March 2020 Monitoring Events Training Area T-6 (Naylor Field), Parcel 183(6) and Cane Creek Training Area, Parcel 510(7); dated June 9, 2020*
Fort McClellan, Calhoun County, Alabama
Facility I.D. No. AL4210020562

Dear Mr. Odom:

The Alabama Department of Environmental Management (ADEM or the Department) has completed its review of the McClellan Development Authority's (MDA) *Corrective Measures Effectiveness Report (CMER), September 2019 to March 2020 Monitoring Events Training Area T-6 (Naylor Field), Parcel 183(6) and Cane Creek Training Area, Parcel 510(7)*. Based on this review, it appears that four of the five corrective action constituents of concern (COCs) and six degradation products exceeded the risk-based target levels (RBTLs) for groundwater during the sampling events. Monitoring wells CWM-183-MW09, MW13 and MW23 were the only wells to exceed RBTLs for the COCs. Eight wells exceeded RBTLs for degradation products. ADEM concurs with the subject CMER and continued semi-annual groundwater monitoring.

If you have any questions concerning this matter, please contact Mrs. Brandi Little of the Remediation Engineering Section at 334-274-4226 or via email at blittle@adem.alabama.gov.

Sincerely,

Jason Wilson, Chief
Governmental Hazardous Waste Branch
Land Division
