Fort McClellan, Alabama 36205

**RE: ADEM Review and Concurrence:** *Final Munitions Response Site 3  
Site-Specific Work Plan Addendum to the Program Level Work Plan for Munitions and  
Explosives of Concern Remediation of Alpha and Bravo Munitions Response Areas of  
McClellan;* dated February 2008  
Fort McClellan, Calhoun County, Alabama  
Facility I.D. No. AL4 210 020 562

Dear Ms. Schneider:

The Alabama Department of Environmental Management (ADEM or the Department) has completed its review of the Joint Powers Authority's *Final Munitions Response Site 3 Site-Specific Work Plan Addendum to the Program Level Work Plan for Munitions and Explosives of Concern Remediation of Alpha and Bravo Munitions Response Areas of McClellan*. The document specifies that the mag and dig geophysical sensors are required to detect 95% of seeded items in the geophysical prove out. Quality control (QC) inspections have been established for horizontal data density and for the digital geophysical mapping (DGM) gaps around single trees greater than five feet. A QC inspection, requiring a percentage of the area investigated to be checked in the QC process, has also been added for the mag and dig areas. The Department concurs with the subject document.

For any questions or concerns regarding this matter, please contact Ms. Julie Ange of the Remediation Engineering Section at 334-270-5646 or via email at [jange@adem.state.al.us](mailto:jange@adem.state.al.us).

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen A. Cobb".

Stephen A. Cobb, Chief  
Governmental Hazardous Waste Branch  
Land Division
