RE: ADEM Review and Concurrence: *Munitions and Explosives of Concern Remediation After Action Report Munitions Response Site 6 (MRS-6) (revised) McClellan, Anniston, Alabama*; received October 12, 2016
Fort McClellan, Calhoun County, Alabama
Facility I.D. No. AL4 210 020 562

Dear Mr. Scott:

The Alabama Department of Environmental Management (ADEM or the Department) has completed its review of the McClellan Development Authority's (MDA) revised *Munitions and Explosives of Concern Remediation After Action Report Munitions Response Site 6*. The MDA clarified that targets that were only cleared to local background due to geologic response were interrogated with an EM61, intrusively investigated to a minimum of 24 inches, and approved by quality control. Therefore, ADEM concurs with the subject document.

For any questions or concerns regarding this matter, please contact Ms. Julie Ange of the Remediation Engineering Section at 334-270-5646 or via email at jange@adem.alabama.gov.

Sincerely,

Stephen A. Cobb, Chief
Governmental Hazardous Waste Branch
