RE: ADEM Review and Concurrence: Replacement Pages to After Action Report for Munitions Response Site 3 (MRS-3); dated June 14, 2018
Fort McClellan, Calhoun County, Alabama
Facility I.D. No. AL4210020562

Dear Mr. Scott:

The Department has completed its review of the aforementioned document, dated June 14, 2018. The Department notes that concurrence was previously given on the *After Action Report (AAR)* for MRS-3 in a letter dated May 7, 2018. However, upon review of the Final Report of Corrective Measures (FCRM) for MRS-3, a discrepancy was discovered regarding the amount of Material Documented as Safe (MDAS) and non-MEC scrap removed from the site. It was determined that the discrepancy was in the AAR; thus, the McClellan Development Authority (MDA) submitted replacement pages for the AAR for MRS-3. Therefore, the Department concurs with the newly revised AAR information.

If you have any questions concerning this matter, please contact Mr. William Duke of the Remediation Engineering Section at 334-271-7782 or via email at william.duke@adem.alabama.gov.

Sincerely,

Jason Wilson, Chief
Governmental Hazardous Waste Branch
Land Division
