RE: ADEM Review and Concurrence: *Final Site-Wide Corrective Measures Implementation Plan for Soil Remediation at Fort McClellan*; dated March 6, 2018
Fort McClellan, Calhoun County, Alabama
Facility I.D. No. AL4210020562

Dear Mr. Scott:

The Alabama Department of Environmental Management (ADEM or the Department) has reviewed the McClellan Development Authority's (MDA) *Final Site-Wide Corrective Measures Implementation Plan (CMIP) for Soil Remediation*. The MDA submitted slip pages on September 18, 2017 as responses to ADEM's comments on the Final document. The Department's comments were adequately addressed; therefore, the Department requested that the MDA submit a Final CMIP incorporating all replacement pages for review in a letter dated February 20, 2018. The Department concurs with the Final CMIP. However, the Department's final approval is contingent upon the completion of the forthcoming modification of the Cleanup Agreement (CA). The proposed modification to the CA will include an update to "Date of Document Revisions" listed in Table I.2, as well as any other relevant changes regarding the CMIP.

If you have any questions concerning this matter, please contact Mrs. Brandi Little of the Remediation Engineering Section at 334-274-4226 or via email at blittle@adem.alabama.gov.

Sincerely,

Jason Wilson, Chief
Governmental Hazardous Waste Branch
Land Division
