RE: ADEM Review and Concurrence: *Final Installation-Wide Sampling and Analysis Plan, Revision 3*, dated September 15, 2023
Fort McClellan, Calhoun County, Alabama
Facility I.D. AL4 210 020 562

Dear Mr. Odom:

The Alabama Department of Environmental Management (ADEM or the Department) has reviewed the McClellan Development Authority's (MDA) subject document. Based on this review, ADEM concurs with the overall content of the *Final Installation-Wide Sampling and Analysis Plan*.

ADEM notes that the Preface Table 2 incorrectly lists the screening level for lead as 40 milligrams/kilograms (mg/kg) instead of 400 mg/kg. On April 3, 2024, ADEM emailed MDA regarding this concern. Although MDA inadvertently listed the incorrect screening level for lead, the notes below the table state that updated screening levels will be used as posted. Please ensure that all relevant documents include the most recent Environmental Protection Agency Regional Screening Levels.

If you have any questions or concerns regarding this matter, please contact Ms. Kaneshia Townsend of the Remediation Engineering Section at 334-394-4356 or via email at ktownsend@adem.alabama.gov.

Sincerely,

Ashley T. Mastin, Chief
Governmental Hazardous Waste Branch
Land Division
