March 28, 2014

Mr. Robin Scott  
Chief Executive Officer  
McClellan Development Authority  
4975 Bains Gap Road  
Anniston, Alabama 36205

**RE: ADEM Review and Concurrence:** Corrective Measures Effectiveness Report (CMER), January 2013 Monitoring Event Former Chemical Laundry and Motor Pool Area 1500, Parcel 94 (7), Replacement Pages and Responses to Comments  
Fort McClellan, Calhoun County, Alabama  
Facility I.D. AL4 210 020 562

Dear Mr. Scott:

The Department has completed the review of the subject document for the McClellan Development Authority (MDA). Based on this review, ADEM has determined that all comments regarding the *CMER* have been resolved and concurs with the overall content of the subject document. In addition, Table D6-1 states that 1, 1, 2, 2 tetrachloroethane and 2-hexanone method detection limits (MDLs) are higher than their respective preliminary screening values (PSVs). However, a January 10, 2014 letter states that MDA will work with the laboratory to identify alternative methods for the analysis of constituents that have MDLs greater than PSVs. Therefore, all future documents should include MDLs that are less than or equal to PSVs in accordance with the Alabama Environmental Investigation and Remediation Guidance.

If you have any questions or concerns regarding this matter, please contact Ms. Kaneshia Townsend at 334-394-4356 or via email at [ktownsend@adem.state.al.us](mailto:ktownsend@adem.state.al.us).

Sincerely,

Stephen A. Cobb, Chief  
Governmental Hazardous Waste Branch  
Land Division
