RE: ADEM Review and Concurrence: Proposed Technical Approach for the Former Pistol Range, Parcel OA-03, dated February 7, 2013
McClellan, Calhoun County, Alabama
Facility I.D. No. AL4 210 020 562

Dear Mr. Scott:

The Alabama Department of Environmental Management (ADEM or the Department) has reviewed the McClellan Development Authority's (MDA) *Proposed Technical Approach for the Former Pistol Range, Parcel OA-03*, dated February 7, 2013. The Department concurs that a Supplemental Investigation is warranted to delineate metals contamination at the site. However, please note that according to the U.S. Army's *Results of XRF Soil Sampling at OA-03, Former Pistol Range*, dated June 4, 2008, several metals were detected above their respective background, site-specific, and ecological screening values, including cadmium, manganese, and thallium. Please also note that the MDA is responsible for presenting a complete and adequate characterization of the entire site in a Supplemental Investigation report.

If you have any questions concerning this matter, please contact Mrs. Ashley T. Mastin of the Remediation Engineering Section at 334-271-7797 or via email at atmastin@adem.state.al.us.

Sincerely,

Stephen A. Cobb, Chief
Governmental Hazardous Waste Branch
