Dear Mr. Satkin:

The Alabama Department of Environmental Management (ADEM or the Department) has reviewed the Site Wide Digital Geophysical Mapping Quality Assurance Plan dated November 19, 2004. The quality assurance plan appears to adequately address important issues concerning geophysical mapping, data collection, processing and interpretation regarding an MEC investigation. The Department concurs with this document, and Matrix Environmental Services, L.L.C. may proceed with finalizing the Quality Assurance Plan.

ADEM will monitor and review all aspects of work conducted by Matrix Environmental Services L.L.C. and URS Group, Inc. for consistency and conformance to the Quality Assurance Plan as submitted in its final form.

Should you have any questions, contact Ms. Shana Decker at (334) 270-5684 or via e-mail at sdecker@adem.state.al.us.

Sincerely,

Stephen A. Cobb, Chief
